“ I worked many years with Susan. I have recently gotten a lot closer to her once she started working in pre-op. We had so many laughs every day and in spite of her grief she always had a smile on her face as she took care of her patients. I miss you so much already and my life is better because of knowing you.

“ I'm so sorry for the family's loss. My heart is breaking thinking of her and how much I'll miss her. This doesn't seem real and just so sad. I loved her and will cherish the memories and times I got the honor to spend with her.
